

List of Roles Requiring a Garda Vetting Check in Dioceses and Parishes

This list has been produced on a common understanding of roles within the Church of Ireland. However, roles may differ in various contexts.

For example, a caretaker in one parish may not be involved in regulated activity with children and therefore, wouldn't require a vetting check, while in another parish, a caretaker might lead a gardening group with children and would therefore require a vetting check. It is important that each role is assessed according to the guidance provided by Garda Vetting Bureau to determine whether a vetting check is necessary.

Name of Role
